

MAKE
an IMPACT!

*Discover the hidden power of
SunDrum® Solar!*

Cut your CO2 emissions!

*A typical system would reduce your car-
bon footprint by over two tons of CO2
per year.*

*Reduce imported energy. Your energy
is made in the USA and so are your
SunDrum® Collectors!*

*SunDrum® Solar collectors capture
solar panel's waste heat and turn that
heat onto hot water for your home.
SunDrum® Solar's Solution delivers an
amazing 60-70% of the sun's energy.*

*Total Energy Solution captures 3X more
energy than Solar Panels alone!*

INVEST IN YOUR FUTURE

Increase the value of your home.

Cut your CO2 emissions.

Reduce imported energy.

IMPROVED ECONOMICS *with* HYBRID SOLAR

Lower electricity and hot water energy bills!

A modest investment yields outstanding, low risk tax free returns year after year.

*Increase the value of your home!
Appraisers estimate the value of your home increases \$10 to \$20 for every dollar of solar energy savings.*

*Make your solar installation economical!
SunDrum® Collectors cut your cost per watt in half by capturing 3 times the energy of a solar panel only system.*

Turn your 200 Watt solar panel into a 600 Watt revenue stream.

Eligible for attractive Federal and State incentives.

SUNDRUM® SOLAR'S SOLUTION IS IDEAL FOR *Residential & Commercial* APPLICATIONS

*Ideal for Apartment Buildings,
Hotels, Restaurants, Schools, Food and
Beverage processing*

*Elegant design!
Beautiful on any home!*
